PROFILE

Highly motivated High School Student specializing in Mathematics & Computer Science with a strong background in competitive programming and low-level system behavior. Passionate about cybersecurity, network reconnaissance, penetration testing, and building efficient custom security tooling. Proven track record in regional and national informatics competitions.

TECHNICAL SKILLS

- **Security & Reconnaissance:** Penetration Testing, Web Auditing, Host Discovery, Network Enumeration, Wireshark, Metasploit, CTF Problem Solving.
- **Languages & Scripting:** C++, Python, Bash Scripting, TypeScript, JavaScript, SQL.
- **Systems & Infrastructure:** Linux Administration (Debian, Kali, ParrotSec), Linux Kernel Basics, Docker, Git, SSH Hardening, Firewall Configuration.
- **Web Technologies:** React, Next.js, Node.js, Tailwind CSS.

FEATURED PROJECTS

LOCAL_NETSCAN | *Bash, C++, Linux, Networking, Security Auditing* [GitHub](#)

- Engineered an automated local network reconnaissance tool designed for fast active host discovery and port scanning.
- Implemented modular output parsing and optimized parameters to streamline penetration testing workflows.

CTF_HELPER | *Python, Cybersecurity Framework, Exploitation* [GitHub](#)

- Developed a CLI automation framework to optimize recurring tasks in Capture The Flag (CTF) challenges.
- Integrated automated target profiling, payload generation utilities, and recon logging modules.

SerafimLupan_v2 | *React, TypeScript, Tailwind CSS, Web Security* serafimlupan.com

- Architected and deployed a performant, open-source personal platform to showcase security research, write-ups, and developer projects with minimal load times and zero unnecessary dependencies.

HONORS & ACHIEVEMENTS

- **3rd Place (County) & National Finalist** – National Cybersecurity Olympiad (OSC, Romania) *2026*
 - Ranked 3rd in Suceava county and 63rd nationwide (10th Grade Division) in hands-on security challenges in Romania.
- **National Finalist (43rd Place)** – UNbreakable Romania CTF (Teams, Romania) *2026*
 - Solved real-world scenario challenges covering reverse engineering, cryptography, and web forensics in a nationwide competition.
- **1st Place (County) & 11th Place National** – National Olympiad in Informatics (ONI, Romania) *2025*
 - Demonstrated advanced proficiency in C++ dynamic programming, graph algorithms, and data structures.
- **National Finalist** – Tekwill Junior Ambassadors Hackathon (Republic of Moldova) *2023 – 2025*
 - Consistently placed in Top 5 nationally across C++ algorithmic design and web development challenges in Moldova.

VOLUNTEER EXPERIENCE & LEADERSHIP

IT Instructor & Robotics Club Mentor | *District Public Library "Ion Ungureanu", Căușeni, Moldova 2021 – 2025*

- Co-instructed young students (ages 7–11) in basic programming, algorithmic logic, and building functional robots.
- Prepared youth teams for regional robotics competitions and maintained IT laboratory equipment.

EDUCATION & CERTIFICATIONS

High School Diploma (Mathematics–Informatics) | *College "Vasile Lovinescu", Fălticeni, Romania 2025 – Present*

- GPA: **9.79 / 10.00** (10th Grade Division)

Certifications & Self-Study:

- **freeCodeCamp:** Legacy Responsive Web Design & JavaScript Algorithms
- **In Progress / Active Prep:** PortSwigger Web Security Academy & Cisco Networking Fundamentals
